Taking multiple medicines becomes over whelming.

Forgot to take medicine. A proper list showing medicines details in prescribed manner

Don't want to burdened with recalling medicine names before taking medicines

Why should i continue my medicines when i am feeling better

Missed my medicine asmedicine was not refilled

I wish for an effective notification/sound altert to remind my medicines

Only if there was a way to keep track of my medicines to refill medicine on time

Recalling medicine name is painful

Says Thinks An option to share set medicine remainder details and schedule in order to verify and keep track

Store all manner sometimes

Not bothered about containing medicines in unprescribed

Frustrated to take so many medicines on daily basics

Feels

Tired of recalling medicines names as they are so long and difficult to pronounce

medicines in one as a result medicines get mixed up

Have to ask somebody to help with medicines information to consume in right manner

Does

h

Helpless when no care giver is around to assist.

Unsure and confused about medicine as there so many and kept in unsorted manner

Stopped taking medicines once started feeling better

Skips medicines due to improper medicine restoking system

Nervous to asking somebody multiple times about the medicines
